

CHICAGO NEGRO FATALLY INJURED NEAR LAKE VILLA

Car Plunges Into Ditch As Third Machine Approaches

Walter Burrows, a colored Chicagoan, was injured fatally on July 4, when the car which he was driving was forcefully rammed into a ditch on route 21 near Lake Villa. The accident occurred on the concrete gap.

The negro's attempted to pass another car from the rear was averted by the approach of a third machine from the opposite direction.

The other occupants of the car, the victim's wife, two children, and a woman who was riding with them escaped serious injury.

Burrows' body was taken to the Strang undertaking parlors at Antioch, where his death was declared accidental by a coroner.

There were also several other people injured near here on the Fourth in mishaps which occurred at Libertyville, Milwaukee, Chicago, and Waukegan.

HUGHES AND DESALVO MEET IN WINDUP BOUT AT PALACE

Williams and Taylor to Battle For Colored Championship

Bouts of unusual interest are slated for the Antioch Palace card Friday night. Featured in the windup event are Frankie Hughes, popular Kenosha mauler who has won the A. A. U. title at 133 pounds, and Gus DeSalvo, a tough miller who hails from Milwaukee. DeSalvo is a comer and is said to be a worthy foe for any milt artist of his weight. This ought to be good.

For Colored Championship
Another bout that is sure to be something fast and different will be seen when Tommy Williams, golden glove winner, meets George Taylor, dusky battler from Waukegan, for the National colored championship. The boys are lightweights and will weigh in at 133 pounds.

Other good bouts on the card include Buddy Beyers vs. Corbett Ecols; Bud Hodge vs. Howard Craft; Jimmie Hughes vs. Young Peterson; Jimmie Biscardi, Kenosha, vs. Harry Garbell, golden glove winner, and Ernie Krotokvil, Racine, meets Joey Pitts, Evanston, in the opener.

Ross Wins Last Amateur Battle
Barney Ross celebrated his final appearance in the amateur arena last Friday night by winning over Harry Leggett in three rounds in the feature bout at the Palace. Ross shaded his opponent in all three rounds. Barney, ever popular with Palace fans, now enters the ranks of professionals.

Tommy Williams took four rounds defeat George Taylor. The dusky maulers meet in a return match Friday night for the national colored championship.

Ray Neuman won over Harry Warner by flooring his opponent in the final seconds of the third round of what was claimed a terrific punching bout.

Leo Leggett lost a close decision to Harry Garbell in one of the best fights of the evening, although it was not a slugging match.

Beyers Kayoes Jokinen
The return match between Buddy Beyers, Twin Lakes, and Ernie Jokinen, Waukegan, resulted disastrously for Ernie when he was floored three times in the final session. Jokinen had Beyers on the canvas in the first round but failed to follow up his advantage and the Twin Lakes battler rallied to defeat Ernie by leading the rest of the way.

Don Conn defeated Leo Donnelly in three rounds, and Howard Craft earned the decision over Red Schneider.

Dr. Venn's pump-house at Lake Marie was burned to the ground at 12:30 p. m., on Monday. The loss is covered by insurance with which a new one will be constructed.

Fred Laptad in His 100 Per Cent Wheat

Fred Laptad, farmer of Lawrence, Kan., in the midst of his 100 per cent pure wheat field. Laptad has set what is believed to be a record in the agricultural life of the country by having developed his wheat properties for five years with a rating of 100 per cent pure wheat. He raises his wheat exclusively for seed and his wares are marketed to farmers all over the United States as well as in many foreign countries. He also holds the medal as the master farmer of the state of Kansas.

New Currency Is Now In Great Demand Here

The grand rush is on at the two local banks for the new currency which was first issued yesterday. From now on, for some time, Antioch folks will be carrying more money than ever before. Maybe the reason's because the bills are smaller and maybe 'cause they're new. Grabbing that which is novel is human nature.

There is one Antioch merchant who gives a new dollar bill in change, whenever a customer hands him an amount which exceeds the purchase by that amount. That's good advertising.

It is reported by the U. S. Treas. Dept. that if this excessive demand continues, there will be a dearth of the new currency to exceed fifty million dollars.

LAKE COUNTY CLAIMS 2000 MORE RESIDENTS

The result of an investigation which was carried on by the Chicago Association of Commerce shows that since February, 1929, two thousand more people have decided to make their homes in Lake county.

The cities in the Chicago area which rank in claiming the greatest number of migrants are Chicago, Gary, Oak Park, Evanston, Berwyn, Hammond, Cicero, East Chicago, Aurora, Maywood, Elmhurst, Harvey, Chicago Heights, and Waukegan.

WILLARD CHINN ACCEPTS POSITION IN FLORIDA

Willard C. Chinn, Antioch, member of the 1929 graduating class of the University of Illinois, has accepted a position as principal and coach of the Alva High School at Ft. Meyers, Florida.

Mr. Chinn graduated from the College of Education with a Bachelor of Science Degree, June 12, 1929, while at the University he participated in athletics and won his medals in baseball. He is a member of Phi Epsilon Kappa, National Physical Education Fraternity, Sigma Delta Psi, National Achievement Fraternity and Syssitia, Professional Athletic Coaching Fraternity.

Mr. and Mrs. Chinn and son, Jackie, will leave for their new home about August 15.

MRS. CLARA TURNER DIES AT DAUGHTER'S HOME IN NEW YORK

Lived in Antioch For Nearly Twenty Years—Was Octogenarian

Mrs. Clara Turner, former resident of Antioch, died June 19 at the home of her daughter, Mrs. Lenora Boychey in Solway, N. Y., friends here learned today through a letter from Mrs. Boychey. Mrs. Turner was 85 years old.

Mrs. Turner made her home here with her daughter for about 20 years, the pair living in the Klein building where Mrs. Boychey was manager of the Bell Telephone exchange. They left Antioch about two years ago to make their home in Solway, N. Y.

While in Antioch Mrs. Turner led a very active life for a woman of her age. She was a member of the Royal Neighbors, D. G. A. R., Rebekah lodge, the Methodist church and the Ladies Aid.

Three children survive: Mrs. Boychey (formerly Mrs. Lenora Hughes), Mrs. Ernest Farnum, Norwood Park, and a son, John Turner, Los Angeles, California.

Interment was in Syracuse, New York.

HOLIDAY BUSINESS BEST IN HISTORY, MERCHANTS SAY

Chain O' Lakes Region Entertains Biggest 4th Of July Crowd.

In spite of the fact that the Glorious Fourth came on a mid-week day this year, the Chain O' Lakes country entertained the greatest holiday crowd in history last Thursday. Rooming houses, resorts and hotels were filled to capacity and many private homes were opened to visitors who sought accommodations for the day. Restaurants and food supply stores were swamped with business, in many places a larger number being turned away than could possibly be served. One small stand cooked 125 pounds of hamburger in a few hours on the Fourth.

Reports Business 40% Greater
A check-up of Antioch stores revealed startling increases in business over that of former years. One merchant declared that his business had been 40 per cent greater this year than last; another food supply establishment had the greatest day in its history last Saturday. Sales for the day Saturday reached totals in many cases from \$1,000 to \$1,500, while volumes for the week varied from \$2,000 to \$5,000. One establishment reported that sales during the first six days of the month exceeded 25 per cent of the entire volume of business in a former year.

Business is good in the Chain O' Lakes, and it is freely predicted that 1929 bids fair to be the region's banner resort year.

OFFICERS GRAB RUFFIANS IN FIGHT AT CHANNEL LAKE

Can't Start That Kind of Whoopee Here, Hood- lums Find

It costs real money to cut up and make whoopee at Channel lake. So seven "hard-eggs" from Chicago found early last Thursday morning after they had started a free-for-all gang fight at the Channel Lake pavilion.

Officer Ben Fisher, former Zion policeman, with the assistance of local deputies, brought the gang to Antioch at three a. m. Thursday morning but Judge Tarbell was too busy sleeping to hold court at that hour, so he ordered the prisoners held until morning.

Peter King, 2107 Bissel street, Chicago, and Walter Murphy, 5253 Congress street, Chicago, held as ring leaders, were fined \$50 and costs, the other five getting off with half that amount. Murphy and Joe Farwell, another of the gang, paid their fines and were released, the other five being taken to the county jail in Waukegan. Three of the others later paid their fines, but two could not raise the money and were released Tuesday upon recommendation of Justice Tarbell.

Dane Loses Life When He Dives Into Long Lake

John Degn, a twenty-three year old Danish young man, whose home was in Chicago, lost his life late Sunday afternoon, while he was in the water at Long Lake.

He came to the United States from Denmark only six months ago. While in Chicago, he lived at the Danish Young Men's Christian club. On Sunday, he accompanied a large group of these fellows out to Long Lake, where it was their intention to spend the day engaging in those sports which the water would offer. Although it was quite cool, Degn, with a few others, jumped in and swam for about an hour. He then made his way out to the diving board, from which he dove to his death. The attempts of his friends to rescue him were useless.

The search for his body has been discontinued, because authorities believe that it is entangled in the weeds of the lake bed. They will wait until it rises to the surface.

The dead man is survived by a brother in Chicago and many other relatives in Denmark.

45 MILES FIXED AS LEGAL SPEED OF ILLINOIS CARS

Tangle in Laws Cause Con- flicting Reports; Officials Explain

Illinois' new speed limit for passenger cars on open country roads is forty-five miles per hour. Misinterpretation of the new laws led to conflicting reports which received wide publicity last week.

Inquiries made of Secretary of State Stratton and State Senator Dunlap, author of the bill, brought the assurance that forty-five miles is correct. Both agreed that Governor Emmerson approved the forty-five mile speed item. Senator Dunlap declared that the false reports probably arose from the fact that when he introduced the bill it provided for an increase of only five miles per hour over the old limit of thirty-five.

Confusion of Bills
"When the bill reached the senate committee on road and highway transportation, I caused it to be amended to permit forty-five miles, however," explained the senator. "Some confusion was also caused, I believed, by another bill which, at the time it was introduced, provided for forty-five miles, but was later amended to forty miles. That bill eventually was killed."

"There are several provisions in the law, as it now stands, which should be known to motorists. The forty-five mile limit is a prima facie limit, that is motorists may go faster when it is possible to do so with safety, but in the event they are arrested the burden of proof will be upon them to convince the court that they were not endangering life nor property by such speed."

Safety Is Speed Limit
"The law also provides that no car may be driven at a speed greater than is compatible with safety; therefore, it is easy to conceive that it would be unlawful to drive as fast as forty-five miles upon a crowded highway. The spirit of the law is to place the responsibility for speed on the driver."

Drivers in Cook and Lake county were not arrested for the 45 mile speed last week.

Ross, Hughes Train In Palace Arena

Barney Ross, Frankie Hughes, and other popular leather-punchers were seen in training at the Antioch Palace Saturday and Sunday afternoon. George "Jabber" Young, referee and trainer, was on the job putting the boxers in trim for the next Palace bouts. Among others present were Johnnie Hughes, Eddie Carlow and Pete Ogren.

"Jabber," a top-notch and title contender a few years ago, went three fast rounds with Barney Ross at the windup of the training activities, which included rope-skipping, shadow-boxing and other forms of exercise.

Other prominent athletes will be seen in training at the Palace every Saturday and Sunday afternoon during the summer season. The public admitted free.

SAUVE STRANGER WHO TOOK CAR STILL AT LARGE

Reward of \$400 Offered Fails To Bring Clues.

GAVE BOGUS CHECK

A reward of \$400.00 offered by Charles Sibley Jordan agency here has failed thus far to bring to light any information as to the whereabouts of a sauve stranger who took a light blue Jordan roadster from the local dealer on a bogus check three weeks ago.

The man travelling about in the \$2700 spiffy looking car is one Henry C. Thomas, described as one of the smoothest confidence men who ever visited Lake county. Thomas is a trifle over six feet tall, well built, sandy complexion, red hair, and has two prominent misplaced front teeth. He is about 32 years old. A reward of \$100 is offered for his arrest.

Car Is Latest Model
The missing car is described as latest thing on wheels, 1929 model sport roadster, light blue, with six wire wheels and bearing serial number 130-548 and engine No. 15T-6493. Only two of this model have been sold from the Chicago agency, it is said, the other car having been purchased by a man in Winnetka.

The methods employed by the man who was clever enough to commit a daylight larceny and get away with a fine automobile make an interesting story. Posing as an architectural draftsman Thomas obtained employment, three months ago with the Albert Augustine firm of Kenosha. With Kenosha as headquarters, he made the acquaintance of many auto dealers throughout the territory, among them Ollie Talladay, Waukegan, associate Jordan dealer with Sibley. Thomas made things look good, working the confidence angle of his scheme to the limit. Three weeks ago he went with Mr. Talladay to Chicago to bring out the car. Arriving in Waukegan Thomas said he would go to Kenosha on the North Shore and return Monday with a certified check to get his car.

Takes Car to Kenosha
But Talladay insisted that Thomas take the car, remarking that he could come to Waukegan the following day to give his check. Thomas took the car, and he did return to Waukegan the following day, flashing a certified check for \$4,000.00. After some good natured argument as to price, and remarking that he would have purchased Mr. Sibley's phaeton a week before had he had sufficient cash, Thomas very deliberately made out a check dated the following Monday, payable at the Commercial Exchange bank, Kenosha. After inviting the Jordan dealers to have dinner with him in Lake Geneva, Mr. Thomas departed, and it was not until the following day that the check was discovered to be bogus. The strange part of it was that Thomas did go to Lake Geneva that Sunday evening, was seen there at nine o'clock, but there the trail was lost.

Believe Car Is Hidden
Although descriptions of man and car have been flashed to all parts of the country and to the Canadian and Mexican borders, no clue has been found. Police officers all over the country are on the lookout and a firm of private detectives are working on the case. It is believed by the Jordan dealers that the car is hidden somewhere in the vicinity of Chicago, as it is too distinctive looking to escape notice. If driven about the country.

Thomas is also wanted in Madison, Wisconsin, for giving a bogus check for license for his stolen car.

Many Attend Rebekahs' Ice Cream Social

The members of Lakeside Rebekah lodge were the sponsors of a delightful social, which was held Wednesday evening on the Sabin lot, north of the village hall. The ice cream was good; the homemade cake was better; and the radio provided the entertainment. In spite of the fact that the weather was not so warm as it might have been, a large crowd turned out, and eighteen dollars was realized.

The Antioch Boy Scouts, Troop 61, will have their regular meetings on Monday night at seven o'clock and Tuesday night at seven-thirty.

HintsSalads Will Help You
Keep Cool; Try
These

Now is the time of the year when motoring, swimming, tennis, and other diversions are in vogue. In the light of these, there are not many housewives who are particularly fascinated, when it is ninety in the shade, to engage in that good old-fashioned culinary art which is included only within the categories of boiling, roasting, and the gridiron. If you are interested in the business of keeping cool, try some of these salads. They are wholesome, nutritious, and agreeable to the palate.

Date and Celery Salad

1 bunch celery
½ cup peanut butter
¼ cup chopped dates
Lettuce
Mayonnaise
Separate stalks of celery. Wash and drain. Soften peanut butter with a little boiling water. Add dates and cream together until well mixed. Fill the stalks of celery with the mixture, pressing it in as firmly as possible. Chill and cut in slices on crisp lettuce leaves. Put a spoonful of mayonnaise in the center of each serving.

Tomato Salad

Take the skin, juice, and seeds from nice, fresh tomatoes; chop what remains with celery; and add a good salad-dressing.

Pineapple and Date Salad

1 can sliced pineapple
1 package dates
Lettuce
Cut pineapple and dates in pieces. Mix with mayonnaise or cream dressing and serve on crisp lettuce leaves.

Banana and Coconut Salad

½ cup coconut
Lettuce
3 bananas
Mayonnaise
Spread coconut on a flat pan and put in moderate oven until a delicate brown. Peel bananas. Scrape with silver knife to remove astringent outside part and cut in halves lengthwise and across. Roll each quarter in browned coconut and arrange on crisp lettuce leaves, allowing two pieces of banana for each individual serving. Top with a spoonful of mayonnaise.

Fig Salad

Chop one-half cup of figs with one-half cup of stoned dates and one-half cupful of canned pineapple. Add three oranges cut in small pieces and add mayonnaise dressing. Serve with whipped cream.

Lettuce Salad

Take the yolks of three hard-boiled eggs, add salt and mustard to taste; mash it fine; make a paste by adding a dessert spoon of olive oil or melted butter; mix thoroughly; and then dilute by adding gradually a teaspoon of vinegar, and pour over the lettuce. Garnish by slicing another egg and laying over the lettuce. This is sufficient for a moderate-sized dish of lettuce.

Grapefruit and Date Salad

Arrange dates alternately with sections of grapefruit on lettuce leaves. Serve with mayonnaise. (The dates may first be filled with cream cheese or nuts.)

Before baking potatoes, let them stand in hot water for fifteen min-

utes. They will require only half the time to bake.

When paring apples or other fruits that discolor easily, add the juice of half a lemon to the water in which you drop them and they will retain their whiteness.

Sprinkling sugar over custard pies helps in browning them.

A pinch of bicarbonate of soda in the water in which green vegetables are cooked will help them keep their color.

How Little Violet Van Pool
Was Surprised When She
Made a Trip to Dreamland

"I don't see why I can't take Daisy over to Buttercup's house while I get the lemons for you, Mother?" said little Violet. When she was given permission to "go get them," of course she wanted to take her little sister along. "No, I'm afraid you can't take care of her," said their mother, but with big tears in her eyes, Violet teased and teased. Finally, Mrs. Van Pool told her that Pretty soon, they heard Buttercup's "very, very careful not to let her get lost or run over by the cars."

As the picnicers were putting all the goodies on, Violet and Daisy made their way along the dusty road. say "Bow wow." The little tots old Fido, who was on the front lawn, beat faster and faster. "What will were terribly frightened, because Mamma had often told them that Fido was a naughty dog. What should they do? If they went on, the dog would surely bite them and if they turned back, all the people would laugh and call them little cowards.

After thinking, Violet said, "I know what we'll do. Let's go in back of the house and then the doggie will never see us; but you can't go, Daisy, because you're barefoot and there's a lot of those prickly things out there." At the suggestion of her sister, little Daisy sat down under an old shade tree which was near the road.

There was no one home at Buttercup's house; however, as the door was not locked, Violet went in and started to hunt for the mislaid fruit. At length, when Violet returned after an unsuccessful attempt to find the lemons, there was no little girl under the tree. Violet's heart beat faster and faster, "What will mamma say?" she thought. She called and called, but no answer. In about ten minutes, she went heart-broken back to the picnic grounds. When her mother saw her coming alone, she said, "my goodness, where is Daisy?" Violet burst out crying so hard that she couldn't say anything for a while. Later, she told her mother that she couldn't find her sister. Immediately, the people there began looking for Daisy. By night, practically the whole town was taking part in the search. During the rush, weary little Violet was left at the home of an invalid neighbor. That night, when she was fast asleep, a little fairy came to the house and took her to Dreamland; whom do you suppose she saw there?—her dear little sister, who was sleeping on some straw in a funny old room.

When Violet was eating her breakfast the next morning, she told the invalid all about her trip to Dreamland. The girl who was staying with this old woman found Violet's father and told him about the dream. He ran to his barn right away and where he found Daisy lying on the straw fast asleep.

When Mr. Van Pool brought Daisy into the house, Violet was so glad that she hugged and kissed her and promised that she would never let her get lost again.

Insects Stronger Than Man

In proportion to size, flies, ants, and many insects are relatively far stronger than man. They lift and carry many times their own weight. Man's superiority comes not from the muscle but from the brain. It is by brain directed intelligence that man has survived and thrived. Muscular strength after all is secondary.

MILLBURN PIONEER, SARAH WHITE DODGE DIES IN CHICAGO

Sarah L. White, who died after a short illness on July 1, was born in Canandaigua County, N. Y., on May 12, 1844. She was the daughter of George and Margaret White.

When she was about four weeks of age, she came, together with her parents, to Lake County, Ill., where she settled on a farm northwest of Millburn. She lived here until her marriage to George W. Dodge. When her son, George C. Dodge and her daughter, Alice Dodge Bock, moved to Saskatchewan, Canada, she and her niece, Vera Warden, who had lived in the Dodge home from childhood, continued to live near Millburn until the marriage of the latter in 1910 to Leslie Kemper of Chicago. Mrs. Dodge made her home with them until her death.

She became a member of the Congregational church of Millburn and during her youth and, as long as possible, she took an active interest in it.

She was one of a family of seven children, Sarah, Andrew, William, John, David, Robert, and Margaret. Of these, two survive, Andrew and David, both of whom still reside in Lake county.

Even though Mrs. Dodge was eighty-five years old, she retained her faculties to a remarkable degree.

She leaves to mourn her loss two brothers; a son, George W. of Elbow, Saskatchewan, Canada; a daughter, Alice Dodge Bock, of Downers Grove, Illinois; numerous nephews, nieces, grandchildren; and a great grandson, whom it was her great pleasure to see before her departure.

Harold Hughes and daughter, Ames, Iowa, Mrs. Ruby Hughes Tohill and three children, Fiji Islands, and Miss Pearl Hughes, Calcutta, India, attended the Hughes reunion.

Trust Your
Engine to
POLARINE
or **ISO=VIS**

Your engine will be safe with either of these two rich and sturdy motor oils.

Both Polarine and Iso=Vis will stand up under the trying conditions of country driving. They are sturdy!

Both Polarine and Iso=Vis will protect every bearing surface with cushioning films of oil. They are rich!

Polarine is an economical motor oil. Only because of the large volume produced is it possible to sell Polarine at anything like the low price you pay for it. And only because it gives such satisfactory service is such a large volume demanded.

Iso=Vis is the sensational motor oil that wears and wears! Motorists say they can't wear it out! It maintains a constant body and constant lubricating efficiency—many are able to drive for 1000 or 2000 miles without draining the crankcase.

"SOMETIMES"

The following is a poem for many of us to remember:

If times are hard, and you feel blue,
Think of the others worrying too;
Just because your trials are many,
Don't think the rest of us haven't any.

Life is made up of smiles and tears,
Joys and sorrows, mixed with fears

And though to us it seems one-sided,
Trouble is pretty well divided.
If we could look in every heart,
We'd find that each one has its part.

And those who travel Fortune's road
Sometimes carry the biggest load.

ON BEING WELL

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

So many things we take for granted in life—regular food, clothing, health—and taking them for granted, we very seldom feel any sense of thankfulness or appreciation of these things which are regularly ours. I have seldom ever been hungry excepting for an hour or two in my life. I have always had adequate clothing, though at times I have wished it were more elegant or of greater variety, and as for illness, there has never been a time in my life when I was considered seriously ill. I've had ague and measles and an occasional ache or pain for a day or two, and that is as much as I know about real illness. I come and go as most of you do, never giving much consideration as to how I feel, what I shall eat or what I shall drink or wherewithal I shall be clothed. These things have never been matters to require serious consideration.

But not all people are so lucky.

Sam has been lying in a hospital almost ever since I came to know him four years ago. He is an ambitious young fellow, who had every likelihood of doing something worth while until disease got a grip on him and sent him to bed where he has been lying all these months. He has a good prospect of some day being well, but no one knows exactly when. It will take time and patience and self-sacrifice on his part. Until health comes he must lie quietly and take things as they come, and amuse himself as he may. There is little he can do.

His bed is by an open window, and the view outside is a very restricted one. A road passes near by obscured by shrubbery, but occasionally he can see a motor car scurrying by or a pedestrian moving slowly along the road as he himself longs to do. The strip of lawn in view of his window grows green in the spring; flowers are planted in the small beds scattered about and gladden his eye with their color. The grass grows brown and dead as winter comes on; snow covers the ground at intervals, and all the time Sam is lying looking out upon this circumscribed scene. He has been a very active boy, too, before his illness. He has memories of athletic games in which he excelled, of long walks along pleasant shady roads, of cantering over the prairies on horseback, and these recollections make his enforced imprisonment the more galling.

He would be happier sometimes, he thinks, if he were alone with a few games and a book or two and his own thoughts, but he is surrounded by people not of his own choosing or of his own tastes. Twenty-four hours a day, seven days in the week, three hundred and sixty-five days in the year—the same people shut in as he is. How they can keep from hating each other I cannot see.

It's a wonderful thing to be well!

KONJOLA PROVES DEADLY ENEMY TO RHEUMATISM

Freed From Other Ills Too,
Lady Joins The Ranks
Of New Medicine's
Friends.

MRS. SADA BROWN

"Konjola won a life-long friend in me, for I never did expect to have health like this again," said Mrs. Sada Brown, Plainfield, Illinois. "For years I had rheumatism that settled in my shoulders. My kidneys bothered me night and day. Constipation filled my system with poisons. I became nervous, and my general health was run-down. I kept losing weight and strength. I did not sleep well at night. I was discouraged."

"Countless other medicines had failed to help me, but what a triumph Konjola scored! Constipation was gone after the first few days. My kidneys yielded to the treatment, and all the distress they used to cause is gone. My system was cleared of poisons, and in a remarkably short time the rheumatism pains had left me. I feel like I did years ago, before those ailments beset me. I am glad to add my name to the long list of those who have already indorsed this new medicine!"

Konjola is sold in Antioch, Illinois, at S. H. Reeves' drug store and by all the best druggists throughout this entire section. Advertisement.

A scientist claims he can now distribute death rays by radio.

Shucks, he don't scare us a bit. We're perfectly safe behind the set we own.

Ask one of your neighbors who has a "screened in" porch what part of the house is occupied most in summer and you will find the answer to the question of whether or not it pays.

Some people have a little fairy in their home and oth-

ers have a miss in their engine, but we know a fellow who has a little made in his cellar.

Don't throw your money on cheap paint. Come in and get some genuine DUPONT paint when you get ready for that job—then you know you get something for your money.

We see where a wild man was discovered in Maryland, but it may be just some fellow who wandered away from the Senate.

Very often people say to us, "Do handle nails, or do you sell cement?" We sure do sell nails and cement and just a lot of other things here at our lumber yard. If you don't see what you want, just ask for it.

When it comes to drawing the color line, no one seems

to go to such extremes as the girl with a lipstick.

A certain lady who had accompanied her husband up North on a fishing trip was asked, "Can you get board up where you were?" and she answered, "I'll say, you can — bored stiff." Moral — Spend your vacation in the CHAIN O' LAKES region and be happy.

We invite the public in general, and especially those interested in building, to come in and pay us a visit. We will be mighty glad to show you around and will do our best to explain any thing that you do not quite understand. Right HERE is where the HOME BEGINS.

A worm still lives even though it is cut in two. This is because the worm is "constructed" differently than humans. Next Sunday the theme will be "Doubts." The motto is for Christians to believe their beliefs and doubt their beliefs and believing their doubts, but beware of doubting doubts. The latter makes good sense when thought through. The Vestry had a most interesting meeting last Tuesday and many improvements are planned for the physical as well as the spiritual portions of the church. All are welcome at St. Ignatius' and you are invited to make this your Church Home. A word to the wise is suffice.

On Sunday, July 21, in the evening at 7:30 the men of the church are putting on the program of the evening. This is the one Evening service of the month and the special features of the service should make it one of interest and benefit. A month later the ladies of the Church are to provide the program. The group having the smaller attendance present at their respective programs will entertain the winning group with an evening social in the near future. These services should be well attended due to what is in store for us.

Royal Residence

Buckingham palace is situated in London at the west end of St. James park. The building has been many times changed and the present facade is 300 feet in length. The great state rooms are the throne room, 66 feet long; the green room, 50 feet long, 33 feet high; the grand salon, 110 feet long, 60 feet broad; the picture gallery, 180 feet long. There are 40 acres in the garden.

Jewish Wailing Place

The Place of Wailing is an inclosed place near the mosque of Omar in Jerusalem, where the Jews congregate every Friday to lament the fall of Israel and pray for its restoration. The wall in front of which they gather is 156 feet in length and 59 feet in height. The nine lowest courses of stone consist of large blocks. Above there are 15 courses of small stones. Some of the lower courses may have belonged to Herod's temple.

BUSINESS IS GOOD

Antioch merchants, experiencing at the start of the 1929 resort season the greatest business in the history of the town, are awakening to the fact that the regional advertising for the Chain O' Lakes is going to pay—that it is paying. Many merchants here readily admit that the Chain O' Lakes booth at the out-door show in the Coliseum the first week in May and the distribution of 30,000 folders have brought thousands of people, people who spend money, to the lake country. A few merchants are reluctant to admit that the advertising has produced any tangible results. "Something has increased our business," they say, then proceed to give every other reason imaginable, except advertising, as the cause. Conditions this year have been adverse—weather was not favorable to resort business, the Fourth of July came in mid-week, yet business here has been from 20 to 40 per cent better than in former years. Advertising did it. Publicity costs money, while clear skies and favorable holiday dates can not be purchased. The answer is: Advertising has produced. Why not admit it, Mr. Merchant?

TEN TO ONE

It is probable that 10 farmers live on secondary or feeder roads to one farmer who lives on a main highway. This means that it is highly important to consider waterproofing and hardsurfacing the secondary roads. Not only should this be done to accommodate the farmers and make new territory more accessible, but it should be done to relieve the main highways of traffic and thereby eliminate unnecessary congestion. The application of road oils and asphaltic products has revolutionized modern road construction on an economical basis.

REDUCING STATE TAXES

Why should nearly all the state, county and city taxes be collected from farms, homes and industries? Why should not a larger part of these revenues be carried on local government be collected from crimes, luxuries, follies and extravagances? In some states there is a regular system of raising part of the local revenue from occupations, sports, amusements, etc.

Is there not a suggestion in the following editorial

paragraph from the Los Angeles Times?
"It is thought that the government revenue from tobacco in Poland will this year reach \$150,000,000. As the total budget of the country is only about \$380,000,000 it will be seen that the country will pull nearly half of its expense money out of the smoke. If governments formed the habit of levying taxes upon all vices the virtuous would presently have no assessments to pay."

WORK FOR SAFETY

The tragic phase of automobile fatalities is that most accidents are unnecessary. Yet every year thousands of people pay with their lives for carelessness, recklessness and incompetence of drivers.

Compulsory insurance can never offset this irreparable loss. At its best it can only indemnify. It begins at the wrong end of the problem.

What is needed is a safety consciousness on the part of the public and rigid enforcement of adequate driving laws. In certain communities safety lessons have been given in schools, with the result that accidents to children appreciably decreased. Tests have shown that the accident rate will drop to a minimum when traffic laws are enforced and offenders punished.

In many localities the traffic codes are out-worn and inadequate, having gone unrevise since the time when an automobile was something of a curiosity.

Education and law enforcement must help the railroads lower accidents and helped in fighting fire and disease. Applied to the automobile accident problem they would give quick and gratifying results.

REDUCING THE FIRE HAZARD

In the early days of insurance the general plan for making rates was that the public made the conditions and the insurance companies made the rates to suit. Responsibility of insurance companies included only collection of premiums, payment of losses and maintenance of solvency.

The idea that the public is entitled to service along with the purely mechanical conduct of business, has been a development of recent years in the insurance business as well as in all other lines.

The National Board of Fire Underwriters, the service organization of the stock fire insurance companies of the United States, serves both parties to the fire insurance contract. For the companies, the property owners and municipalities, it collects and distributes information on a great variety of subjects.

The cost of insurance is part of the overhead expense of every business. Fire insurance companies are alert to reduce the burning ratio, which is the prime factor in that cost. Committees of the National Board devote their time to that endeavor.

For example, the committee on adjustments is now engaged in co-ordinating the practices of adjusters and eliminating sources of waste in connection with losses.

The committee on construction of buildings strives to make property safe in itself while the committee on fire prevention and engineering standards is in touch with fire departments and water boards of every city of any size in the United States working for standardization and improvement of fire fighting facilities.

The committee on incendiaries and arson is endeavoring, with a considerable degree of success, to rid the country of "firebugs."

The committee on laws keeps constantly in touch with the introduction of statutes affecting insurance and its cost to the public.

sought from a sub-committee of the Senate Finance Committee further tariff protection, notably on live cattle and fresh meats. A representative of the National Live Stock Producers' Association urged a rate of 4 cents a pound on beef cattle, instead of the proposed 2½ cents. For fresh meats he asked 8 cents a pound as against the House rate of 6 cents, which is about double the existing duty. He further said there was an increasing pressure for the importation of Argentine meat, and asserted that to lift the embargo would place American farmers in a serious situation.

Tuberculosis "Cures" Driven Off Market By Federal Agency

Drug "cures" for tuberculosis have become a rarity in the interstate commerce of medical preparations, according to the Food, Drug and Insecticide Administration, Department of Agriculture. So effective has been the work of the administration in removing this class of drug products from the market that today there are but few medicinal preparations for which their makers make claim of curing tuberculosis or even mention tuberculosis in the labeling.

Appropriations Bills To Have Precedence In Regular Session

Appropriation bills, the annual supply measure for the maintenance of the Government, will have the right of way over all other legislation at the next regular session of Congress convening in December. Aside from the appropriation bills, there is no proposed legislation outstanding at this time. This of course is predicted on the tariff revision bill's becoming a law before the present extra session of Congress, now in recess, finally adjourns.

Illinois To Be Chief Of U. S. Federal Farm Board

The Federal Farm Board, to which President Hoover looks for a solution of the problems confronting the

agricultural industry, continued to take shape with an announcement from the Chief Executive that appointments had been accepted by Alexander H. Legge, of Chicago, and Charles C. Teague, of Los Angeles. Mr. Legge will serve as Chairman for the first year at least. As now drawn up, the board will consist of Alexander H. Legge, representing business; James C. Stone, Kentucky, representing tobacco; C. B. Denman, Missouri, representing live stock; Carl Williams, Oklahoma, representing cotton, and Charles C. Teague, California, representing the fruit-growing industry. It is expected the remaining places will be filled with a spokesman for the wheat-growers, and a man experienced in banking and finance, as Mr. Hoover has announced his intention of equipping the Board with such members. The members of the Board will act under recess appointment until their names are sent to the Senate for confirmation.

FOUND a fellow the other day who didn't approve of Delco-Light. Said it was simply ruining his business. Come to find out he's a chicken thief. He says, "It's gettin' so these days a fellow ain't got a chance. You no more'n get your hands on a nice, fat pullet when somebody turns on a light in your face and right away you gotta start dodgin' buck shot."..... I didn't have much sympathy for him. A man that hasn't any more sense than to try to steal chickens on a farm where there's a Delco-Light certainly does not deserve much sympathy.

Joseph's coat of many colors never had anything on the Charles Lux electric shop, since the store front has been treated to a new coat, or coats, of paint. Bright green, red, yellow and brown, across which is the familiar marking representing an electric flash, is a combination hard to beat and it does attract attention. "It's the best advertising there is," remarked Justice Sam Tarbell, as he viewed the work of the painters with keen satisfaction.

"There'll be a big air port near Antioch by world's fair time in 1933," declared P. E. Chinn yesterday while discussing traffic conditions over the Fourth of July holiday. The Lake county traffic problem is a problem indeed, in the estimation of Mr. Chinn who has had his eyes open to the ever changing conditions. Roads may be widened but they can't make them wide enough to accommodate the thousands who will desire rapid transportation to and from the city in 1933.

"Never knew less in my life," remarked Justice William H. Regan in answer to the query "What do you know?" His interrogator was puzzled and has not yet decided whether Bill is really growing wiser or just getting more cautious since his ascension to the bench. Anyway Mr. Regan never says anything to hurt anybody's feelings unless it is when he names the amount of the fine plus costs.

This week marks the final drive to have all automobile owners in Antioch purchase the required vehicle tax tags, and it is the time for the usual panning of the village board regarding street improvement. The practice of collecting five dollars from auto owners each year has been condoned and condemned ever since the passing of the ordinance several years ago. Anyway those who pay expect, and have a right to expect, some kind of street improvement, as that is the purpose for which the money should be used.

Speaking of uses of money, wonder why the village does not publish last year's treasurer's report? Any person or persons who handle public funds in Illinois are required to publish a statement of receipts and disbursements. Such a statement would probably show what became of last year's vehicle tax money and collections this year would be much easier.

Antioch folks don't have to go for a drive to get a glimpse of an environment which is rural. There is plenty evidence of it in Bock's window display. There you can see the water wheel (which is no more), the pond, the cows, sheep, and horses gambling on the green and yes, even the "no parking" sign. Well, the big

President Hopes Reduction In Taxes Can Be Effected.

President Hoover is hopeful that it will be possible to reduce taxes, a careful study of which is being made, but feels that before a final conclusion can be reached on the question three factors must be determined. These factors are: Determination of the effect of legislation enacted during the last 12 months which has greatly increased expenditures for the current fiscal year beyond the original budget; How far expenditures of the Government in other directions can be reduced to compensate for the increases during the past 12 months, and how far the increase in revenue is due to the temporary stock exchange activity. This conclusion should be reached within the next four months so that the President may be prepared to advise Congress at the opening of the regular session.

Estimates Asked By President For The Next Fiscal Year

The President, through the Bureau of the Budget, has called upon all spending agencies of the Government to keep their estimates for the fiscal year 1931 (which starts July 1) within the limits laid down for the fiscal year 1930. The cost of Government for the new fiscal year has been set by the President at approximately \$3,726,000,000.

New Origins Quotas Will Curb Alien Influx

The National Origins provision of the 1923 Immigration Law is now in effect. This will cut down the number of incoming aliens to some extent as applied to certain European nations, but Canadian and Mexican immigration will not be affected. President Hoover opposed the National Origins provision, but due to the fact that no new legislation was passed by the special session to the time of its recess, this law automatically becomes effective as of July first.

President Is Urged To Check Unlawful Admission Of Aliens

An appeal has been made to the President to use every power at his command to stop the influx of aliens entering the United States in violation of the law. According to estimates of the Department of Labor more than 200,000 aliens are coming in every year unlawfully. They are being smuggled into the country in various and sundry ways. It was stated at Geneva recently by the President of the International Seamen's Union that between 60,000 and 70,000 are bootlegged into this country every year as seamen.

Senator Bingham To Seek New Libel Clause To Stop Defamations

Senator Bingham (Rep. Conn.) plans to propose at the next session of Congress an amendment to the Constitution that would strip members of Congress of immunity from prosecution for libel. In making this announcement he declared much harm is often done by untrue and ill-founded statements on the floors of the House and Senate where they are protected by the constitutional clause providing that "any speech or debate in either House shall not be questioned in any other place." He further asserted "If the immunity were taken away many attacks upon private citizens, corporations, religious sects and churches would never be heard."

BRISTOL RESIDENTS MEET WITH ACCIDENT NEAR LIBERTYVILLE

Vacation Bible School Is In Session—Knapp's Given Party

Edith Mitchell and daughter, Miss Mayme, who were in company with Byron Riese last Sunday, while enroute to Lockport, Illinois, to visit relatives, met with an auto accident near Libertyville. A car, driven by a woman who attempted to pass a line of cars, was unable to get into line again and collided with the Riese car. Mr. Riese, feeling his doom, attempted to take the ditch, but she hit him before he could make it. The Riese car, which was recently purchased, was demolished beyond repair. All of the occupants of the Riese car were cut about the face quite badly and considerably bruised, but not seriously injured. It seems strange how many people forget to value life when they enter a car.

The Vacation Bible School started Monday for a two week's course. Misses. Kient and Stewart were recent visitors of Mrs. Malcolm Mohr, who is ill in the Kenosha hospital.

Mr. and Mrs. Glen Knapp were given a surprise party Sunday by about twenty-five friends and relatives. It was given in honor of their joint birthday anniversary.

Miss Emma Lewis was united in marriage to Louis Jarnigo of Salem. The marriage took place in Woodstock, Ill.

Mrs. Genevieve Jorgensen will entertain the Ladies' Aid Society Thursday afternoon.

Mrs. Louis Pofahl will entertain the German Ladies' Aid Society on Thursday afternoon.

Mr. and Mrs. Harry Gordon and daughter, Joliet, Illinois, and Mr. and Mrs. Clarence Curtis, Kenosha, visited Mr. and Mrs. Frank Fox Friday.

Mr. and Mrs. E. L. Stonebraker visited Mr. and Mrs. Andrew Beemick, Milwaukee, last week and attended the Kingsly church service Sunday.

Miss Jessie Shumway, Chicago, is spending her vacation at the William Foulke home.

Mrs. Olive Williams accompanied

Mr. and Mrs. Fred Parkin, Des Moines, Iowa, to Detroit, Michigan, to visit relatives.

Mrs. Hattie Hollister and Mrs. Lucy Hollister visited the E. C. Smith family, Madison, Saturday and Sunday.

Mr. and Mrs. Joseph Merrill, Zion, spent Sunday at the E. S. Fox home. Mr. and Mrs. Harry Skinkle and son, Ralph, have returned to their home in Kenosha. They have been at the F. Gethen's during the past ten days, where Mrs. Skinkle was recuperating following an operation in the Kenosha hospital.

Marshall Bishop, who was layed up with infection last week, resumed duty as mail carrier Monday.

Ted Wolfgram, Kenosha, called on Mr. and Mrs. Frank Fox Sunday afternoon.

Smoot-Hawley Bill as indicated by the hearings to date, the Chairman of the Senate Committee on Finance stated recently. "The Democrats, looking for politics in the tariff adjustment situation," he said, "are making many public statements about the 'raw deal' the farmers are receiving at the hands of the readjusters. As a matter of fact, both the Ways and Means Committee and so far the Finance Committee in gestures, have given the farmers and producers the best of it."

"Thus far, practically the only increases suggested to the industrial schedules," he continued, "are due to compensation, that is increases in manufactured goods because of increases in raw materials."

Sugar Magnate Calls on President. Rudolph Spreckels, President of the Spreckels Sugar Corporation, conferred with President Hoover recently on the sugar schedule of the House Tariff Bill. He stated that the increases proposed did not offer real protection to the sugar industry or to the consumers. He favors a sliding scale of duty which would maintain the prices of duty-paid sugar on a fair basis, and believes if Congress will determine what would be a fair minimum and maximum refiners' margin between the open market price of duty-paid raw sugar and price of refined, and require refiners to pay the government a penalty for violation in selling sugar above or below such a margin, the American public would be duly protected, and the American beet and cane farmers and the entire American sugar industry, as well as the labor engaged therein, would prosper within reasonable bounds without doing injury to the Hawaiian sugar producers.

Norman Jedeke was home from Milwaukee over the week-end.

Mr. and Mrs. August Holdt and Mr. and Mrs. Harry Holdt and family, Bristol, visited with Mr. and Mrs. D. Fuller at Antioch Sunday.

Mr. and Mrs. Fred Frank and daughter, Betty, from Northbrook spent from Friday to Sunday with

Mr. and Mrs. John Frank. Mr. and Mrs. Patrick Quinn of Chicago were week-end guests of Mr. and Mrs. Otto Allen.

Ermine Carey spent from Wednesday to Sunday at Lake Forest.

Mr. and Mrs. Wilbur Lewis of Milwaukee were at the home of Mr. and Mrs. Frank Burroughs over the Fourth. Wilbur Jr., and Teddy, who had been visiting there, returned to Milwaukee with them.

Mrs. Mary Wright and Mr. and Mrs. Thomas Fuson of New York called on friends at Wilmot Monday.

Mr. and Mrs. Fuson are on a concert tour through the southern and western states.

Mr. and Mrs. J. Huber and Mr. and Mrs. Julius Huber of Ann Arbor, Michigan, spent several days last week with the Rev. and Mrs. Jedeke.

Mr. and Mrs. Edward Murphy, Anne, Betty, and Jack Murphy called at the home of Mr. and Mrs. H. C. Darby, Sunday.

Mr. and Mrs. Alfred Reynolds entertained Mr. and Mrs. W. Peterson and children, Kenosha, and Mr. and Mrs. Ray Kinnead and daughter of Belvidere Sunday.

WILMOT PIRATES BEAT EAGLE LAKE BY SCORE OF 20-3

Wilmot Club Wins—State Line Team Will Play Sunday

The Wilmot Pirates trimmed Eagle Lake at Eagle Lake diamond Sunday 20-3; Wilmot scored seven runs in the first inning and was never in danger during the remaining innings. Art Gegan was the hitting star of the game, closely followed by Shubert Frank.

The Wilmot Club traveled to Johnsonburg on July 4 and defeated that club 8-1. This was the second defeat that Wilmot handed the Johnsonburg team this season.

The State Line team comes to the Wilmot park next Sunday for the third game of the series.

Mr. and Mrs. Earle Thomas of Greenwood, P. J. Mulford of Winthrop, Iowa, and Mr. and Mrs. C. G. Dorwin of Wauconda were guests Sunday of Mr. and Mrs. A. C. Stoxen and family.

Mrs. D. A. Kimball of Waukegan was a guest of Mrs. George Faulkner on Monday.

Mrs. Fred Faulkner spent Friday in Chicago with her sister, Mrs. John Staley.

Pete Wilcox of Los Angeles, California, spent the week at the Wilmot hotel.

Mr. and Mrs. Phillip Meyers and children of Waukegan and Mr. and Mrs. G. Lavendoski of North Chicago were guests over the Fourth of Mr. and Mrs. Ferdinand Beck.

Mr. and Mrs. Shirley May Meyers have been spending several weeks with their grandparents, Mr. and Mrs. Beck.

Mr. and Mrs. Frank Kruckman and Dale spent Sunday with Mr. and Mrs. Lou Cole at Crystal Lake.

Mill Children Touring the Nation

These three mill workers of Gastonia, N. C., are now making a tour of the country under the auspices of the International Labor Defense committee to raise money for the defense of other workers, some of whom were held in connection with the shooting of Chief of Police Aderholt. The three are, left to right: Edgar Passmore, seventeen; Elizabeth Maginnis, sixteen, and Blinney Green, fourteen years old.

DIPPING INTO SCIENCE

Center of Streams Swifter
Water along the sides of a stream is retarded constantly by rubbing against the banks. The water just a little farther out is retarded less because it touches only the slower moving water. So out in the middle of the stream the current is swiftest because water develops less friction from the adjoining water than it does from a stationary mass.

Giant Meteorite
A meteorite fell in Arizona on the 19th of July, 1912. The largest fragments weighed 14 pounds. Upward of 11,000 separate stones were gathered, the total weight being about 491 pounds.

Wouldn't Change Troubles
If all our misfortunes were laid in one heap, whence everyone must take an equal portion, most people would be content to take their own and depart.—Socrates.

Equator Shrinking
The distance around the equator has shrunk since 1828, at least one and one-half miles.

1-2 YOU BE THE JUDGE PROOF!

You are buying the tire. You have a right to know what you're getting. Come in and make the 1-2 tests yourself... we'll not ask you to buy. Most interesting tests ever made on a tire, they show the definite superiority of Goodyear Tires in both (1) TREAD (2) CARCASS—so simple a child can understand.

THE TREAD TEST

You feel the superior All-Weather Tread Traction

THE CARCASS TEST

You see the SUPERTWIST Cord stretch 66% farther
